STRAIGHT SCREW-IN FITTING PUSH-IN 6 X G1 / 8

Model: 43010610

Description

A good pipe clamping is ensured by the nickel-plated brass release ring.
Can be used with various material types without damaging the surface.
The tube fitting connection is highly resistant to vibration and stress, even under vacuum.
The parallel threads have an o-ring. The straight screw-in fittings can be mounted with an Allen key.
Suitable for PA6, PA11, PA12, PE and PU hose.
