

SAFETY AIR COUPLER YELLOW 3/8 FEMALE

Model: ASI061102

Description

The ASI coupling (aviation safety coupling) from Prevost is a coupling that complies with the ARBO standards, ISO 4414 and EN 983.

They also comply with the Orion 6 and Aro 210 profile.

For your convenience, the connection size is engraved in the coupling so that you can ensure that you have the right model.

Note: vacuum applications are NOT possible.
