

GRACO MSP ELEMENT 35T

Model: 562726

Description

The Trabon MSP Series sets the industry standard for quality, reliability, and ease of use features. It was the original modular-style series progressive divider valve and is still the hest!

- Quick change valve sections can be removed from the base assembly without disturbing any lube lines - minimising labour cost and maximising your machine uptime
- Accessories such as magnetic and electronic proximity switch cycle indicators provide positive assurance of a successful lube event.
- Alternate outlet on face of valves can be fitted with optional performance indicators, taking the guesswork out of troubleshooting
- Built-in outlet check valves ensure accurate lube delivery every time

Application
Compatible Material
Cycle Indicator
Divider Valve Series
Material
Maximum NLGI Grade
Maximum Working Pressure (bar)
Maximum Working Pressure (kPa)
Number of Outlets
