

GRACO MSP ELEMENT 10T

Model: 562721

Description

The Trabon MSP Series sets the industry standard for quality, reliability, and ease of use features.

It was the original modular-style series progressive divider valve and is still the best!

- Quick change valve sections can be removed from the base assembly without disturbing any lube lines - minimising labour cost and maximising your machine uptime
- Accessories such as magnetic and electronic proximity switch cycle indicators provide positive assurance of a successful lube event.
- Alternate outlet on face of valves can be fitted with optional performance indicators, taking the guesswork out of troubleshooting
- Built-in outlet check valves ensure accurate lube delivery every time
