

GRACO MSP ELEMENT 20T

Model: 562723

Description

The Trabon MSP Series sets the industry standard for quality, reliability, and ease of use features.

It was the original modular-style series progressive divider valve and is still the best!

Quick change valve sections can be removed from the base assembly without disturbing any lube lines - minimising labour cost and maximising your machine uptime

Accessories such as magnetic and electronic proximity switch cycle indicators provide positive assurance of a successful lube event.

Alternate outlet on face of valves can be fitted with optional performance indicators, taking the guesswork out of troubleshooting

Built-in outlet check valves ensure accurate lube delivery every time
